

Dear Chairman Powell and Members of the FCC:

I am opposed to the proposed rules which allow media conglomeration to proliferate.

We should keep the regulations as they are.

The consolidation has already had a deleterious effect on local markets, which have already suffered.

When such diverse groups oppose these regulation that should be a reason to question your proposed regulations.

This is less about openness and art than about the god of money and the democracy of the rich and powerful.

Jean Schulz
